SMME WORK PACKAGES**

Good day all

Please note that, the attached table of packages will be made available on the above-mentioned contract.

Jodan Construction will work through all CVs on the database to determine which SMME candidates will be invited to an interview process for each work package.

From this interview process, we will select the required number of SMMEs who have met the required criteria (returnable documents in place) and/or who have displayed accurate knowledge in the process of producing the required works to the correct standard requirements and quality.

All materials on site will be purchased and supplied by Jodan Construction. SMMEs to ensure that they have their own labour (with Medicals), PPE, and tools to perform the required work.

If selected for a required work package, all will be explained, and a contract will be signed by all parties.

We trust that you find the above in order.

Yours faithfully

Jodan Construction (Pty) Ltd

Craig Cornelissen
Contracts Manager
